

An insidious evil called virus

- The disease first got to the brain: decisions and calculations didn't make any sense
- It spread to the visual cortex: there was no image anymore
- Then the silence came
- And all memories disappeared
- ★ The nerves, damaged, couldn't transmit any information
- ◇ And finally, all power left the carcass.

$$(\bullet + \square) \times (> - \circ) \times \star + \diamond = \_\_\_\_\_\_$$
